ACKNOWLEDGEMENT

I would like to express my sincere gratitude to my project guide for providing continuous guidance, encouragement, and valuable suggestions throughout the development of this project. Their support and constructive feedback helped me understand the technical aspects of the project more effectively and motivated me to improve the quality of both the implementation and documentation.

I am also thankful to the faculty members of the Department of Computer Science and Artificial Intelligence Engineering, Banasthali Vidyapith, for providing the academic knowledge, resources, and learning environment that made this project possible. The concepts learned during my coursework served as a strong foundation for the design and development of this system.

I would like to extend my appreciation to my classmates and peers for their cooperation, discussions, and valuable suggestions during various stages of the project. Their feedback helped identify areas for improvement and contributed to the successful completion of the work.

This project, titled **"ADS-B Live Aircraft Tracking System"**, provided me with an opportunity to gain practical experience in data processing, web development, database management, and real-time visualization technologies. Through the process of designing, implementing, testing, and debugging the system, I developed a deeper understanding of how raw surveillance data can be transformed into meaningful and user-friendly information.

I am also grateful to my family for their constant encouragement, patience, and unwavering support throughout my academic journey. Their motivation and belief in my abilities have always inspired me to overcome challenges and achieve my goals.

Finally, I would like to thank everyone who directly or indirectly contributed to the successful completion of this project. The experience gained during this work has significantly enhanced my technical skills, problem-solving abilities, and understanding of real-world software development practices, making it an important milestone in my academic and professional growth.
